

SPACESAVER UNIVERSAL ARCHIVE BOX SHELVING

Single or double stack boxes, then compact them in the future with the same shelving

- Specifically designed for archive box storage.
- Standard non-moving shelving will hold boxes (upper right).
- In the future as your box storage requirements change you can lift the non-moving shelving up and put it on rolling bases (left and below). With the Spacesaver Universal Shelf the possibilities are endless.
- Phase 1 and Phase 2 approaches to your filing and archive box requirements save money for your organization.
- The Spacesaver Universal Shelf has a special finish to eliminate paint emissions which helps protect your vital information / collection.
- Full design, delivery, and installation available.
